

# 8.21.24 Release Notes

## **VBO 2.60.0**

- Autofill contact information for logged in users
- Emailed reporting is now enabled and functional for all clients
- Permission change for bulk comps and clearing check ins - removing the requirement for these actions to be completed by HomeTown employees.
- Updates to itemized payout reports to include refunded items when applicable. Recommended to always use batch payout reports.
- Updates to bulk comp process to update header text and ignore pass type for non passes

## **Unified Fan UI & API 1.17.0**

- New account page for users replacing existing account page which enables a process for users to merge/delete duplicate accounts
- Message encouraging users with incomplete profile information to complete their profile
- Bug Fixes
  - Fix for seat numbers not showing after check in
  - Fix for Flex (Ticket Spicket) ticket transfers
  - Fix for Flex (Ticket Spicket) ticket access issues where some users are unable to view their tickets
  - Fix for season pass listings

## **Flex 1.7.0**

- Removal of option to add new Global Pay Account (Flex Pay). If any existing client needs to add a new Flex Pay Account they will be required to use the HT account.

## **Fan App 4.1.0 (iOS and Android)**

- Autofill contact information for logged in users
- (Android) Favorites are now stored on the user's profile rather than directly on the device. This allows a user's favorites to persist if they get a new device, eventually onto the web, etc.
- Bug Fixes:
  - Address crashing issues
  - (iOS) Display of custom pass logo on Passes
  - (iOS) Give prompt for a user to log in if trying to self check in a stored ticket from guest mode
  - (Android) Old passes were still showing - ensured showing until July rule was in place

1.

**Pro Tip:** Visit Settings > User Accounts to toggle on Automated Emailed Reporting, so you don't even have to log in to access reports!
